PRODUCT GUIDE

Garic range overview

Setting **the standard of service**

For **over 25 years**, Garic have set the standard of service for the construction industry by providing a wealth of specialist solutions for the manufacture, sale and hire of plant, welfare and servicing equipment. After humble beginnings with just a single JCB (pictured right), we have developed our own **innovative solutions** and built a customer service reputation renowned nationwide.

As an **industry leader**, we have created a range of specialist and environmentally friendly products that are manufactured to meet the exacting standards of today's construction site.

- **Mobile Welfare**
- **Static Welfare Cabins**
- **Storage Solutions**
- **Interceptors and Drip Trays**
- **Enviro Wheelwashes**

As construction site experts we pride ourselves in the **delivery of quality**, great service and competitive price for all our customers.

Building on **our own success**

Garic's business is built on reputation. This is the defining quality of everything we do and the foundation of the way we do business. We understand the value of innovation and embrace change in order to grow. In the past 25 years we have managed to consistently look forward and make informed decisions to sustain our growth.

Our people

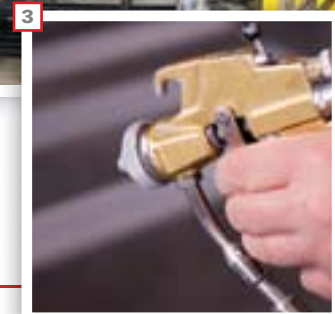

We take a long term view with our business, its customers and suppliers to grow together. We take great pride in these relationships and understand that our people are our best asset, the engine behind our success. We support their continued development whilst welcoming new talent into our business.

Our customers

We are dedicated to putting customers first, working with them to fully understand their specific needs and helping to build their competitive advantage.

UK build... UK quality

- 1 The New Armadillo Mobile Welfare Cabins in production.
- 2 Welding the chassis on the New Armadillo.
- 3 Putting the finishing touches to the Armadillo. Custom spray finishes available in RAL and Pantone colours on our bespoke builds.

...for **static welfare**

COMBI GUARD (14ft x 8ft)

Office/canteen and toilet **facilities are all provided**, with hot and cold water, heating, lighting and furniture. Toilets are spacious, fully equipped and easily washable. Regulation sinks, **fully flushing and sealed toilets**, soap dispensers and hot air hand dryers are provided.

- Also available as a towable mobile unit
- 240v and 12v solar options
- 5 point deadlock doors
- Forearm sinks in toilet
- Ideal for 1-4 staff

TOILET AND SHOWER UNITS

Fully equipped, flushing wc, urinal, hot air hand dryer, hot and cold water, lighting, heating, all from solar power that means very low service costs and no generator! The Combi Shower's **unique self powered system** ensures 15 litres of constant hot water ready for use in any circumstance. For more details see the Combi Cabin brochure.

COMBI CABIN

Combi Cabin is a revolutionary and unique portable welfare cabin concept that has gained **industry-wide recognition** and become the mainstay of our business. It was perfected through **extensive research and development** and provides a hygienic and functional self-contained onsite facility combining heating, lighting, water, cooking, and toilets. **Combi cabin** is strong and secure and is manufactured to the **highest standards** in a wide range of sizes and specifications, with power provided by a super silent computer-controlled generator.

- 24 x 9ft office, toilet & canteen
- 40ft mobile trailer cabins
- Single cabins to full site set-ups
- Bespoke cabin layouts
- Decontamination units
- 2+1 Combi Loo
- Open plan cabins

...for **mobile welfare**

Minimum Hire Period
JUST ONE WEEK
Minimum Hire Period

WELFARE TRANSIT

This fully compliant road vehicle is the **ultimate in mobile welfare** for use in applications such as rail, motorway and highway maintenance, utilities, airport airside operations or just remote contracts.

The welfare transit provides **all you need** for up to seven people including three-point seat belts for all. Hot and cold water, microwave oven and fully flushing wc private toilet area, complete with self-servicing discharge system, at the touch of a button.

ARMADILLO & ARMADILLO ECO

The **NEW armadillo** mobile welfare cabin from Garic is a road towable, self-contained unit large enough for a workforce of up to six or ten. It can be towed into position, placed and then secured making it ready for use in less than five minutes after arrival on site. It doesn't matter how remote your site location is, once the **armadillo** is put in place you can be safe in the knowledge that it will stay put!

As manufacturers, Garic are confident that all our **armadillo** cabins can be adapted or modified to suit any of your individual needs. The **armadillo** is available in two industry standard sizes, has additional features and a better price comparison to similar products on the market.

- Solar powered 12v Eco option available, see Eco Solar Innovation brochure for more details.

BUNDLED FUEL STORAGE

Our **fuel storage solutions** are manufactured to the **highest standards** robust enough to withstand the demands of the construction industry, they can also be designed to suit your specific needs.

Low and high volume tanks, static and mobile options, combined with a range of pumps and accessories makes us confident that we can provide the **ideal solution** to your fuel storage needs.

WATER STORAGE

Potable water tanks, available in a variety of sizes to suit your needs, provide safe, clean drinking water to your welfare cabins. Static tanks or mobile bowsers combined with powered pumps give mains pressure water for cleaning and washing.

Site water tanks are used mainly for mixing cements/concrete, washing, cooling, hydro demolition, concrete saws, piling rigs etc. Also available are a range of dust suppression bowsers and jet washers.

SECURE STORAGE

Store plant, equipment and materials **safe and secure**. With theft from construction sites ever increasing, utilise these high security storage containers on any site to keep your equipment or materials on the inside and the thieves on the outside.

- PlantStore - floorless steel container suitable for large plant and equipment
- Security boxes available in a variety of sizes
- Lockable gas bottle and drum stores with or without interceptor drip trays
- Power Safe all-in-one power pod, a secure power source with a number of output options.

...for **innovation**

BOOTWASHES

The all new **Boot Wash** from Garic Ltd is an inexpensive, easy to install stand-alone cleaning system which solves the problem of premature wear and tear on carpets and floorings from dirty, muddy footwear. The Boot Wash provides an area where your customers or staff can clean off their boots/shoes before they enter any clean zones or buildings.

WHEELWASHES

The most effective and easy to clean system available. Envirowash offers the strongest and most straightforward system to keep your site clean and operating. All Envirowashes are easily cleaned by an excavator with grading bucket or vacuum tanker.

- Enviro Power Wash: fully powered, self sufficient unit
- Drive Thru: no power required, water filled bath
- Elevated Power Wash: quick set up mobile system.

INTERCEPTORS

The world's only Interceptor Drip Tray with a patented protection system that safeguards any unbanded equipment such as generators, pumps, compressors, drums and tanks.

- Interceptor Drip Trays available in a variety of sizes
- Interceptor Drum Trays
- Interceptor Wash Bays and Breaker Bays.
