

WELFARE TRANSIT

anytime, anywhere team welfare

5-7 man transit with mess and toilet

LARGEST FLEET IN THE UK

With the largest fleet of Welfare Transits available anywhere in the UK, at Garic, we are confident we can service your requirements. Getting you to the job without delay.

This fully compliant road vehicle is the **ultimate in mobile welfare** for use in applications such as rail, motorway and highway maintenance, utilities, airport airside operations or just remote contracts.

The welfare transit provides **all you need** for up to seven people including three point seat belts for all. Hot and cold water, microwave oven and fully flushing wc private toilet area, complete with self servicing discharge system, at the touch of a button.

mobile welfare from yard **to site**

ALSO AVAILABLE FROM GARIC

PlantStore, part of the huge range of site storage solutions available. Keeps equipment and plant that needs to remain on site safe from theft, vandalism and arson.

REMOTE SITE ACCESS

The Welfare Transit is perfect for every site, whether it is roadside, railside or off the beaten track. The all-in-one design brings transport and welfare together.

call 0161 766 8808

TOILET AREA

Private toilet area, with access via rear vehicle doors, has flushing wc, independent lighting, and handwash sink with hot and cold running water. The built-in discharge system works from the touch of a single button.

Constructed using a long wheelbase high roof Ford Transit 2.5tdi vehicle, with **eight VOSA tested seats**, microwave, **8 pint water boiler**, flushing fresh water toilet and forearm sink, **hot and cold running water**, servicing waste removal system, automatic air freshener, 80 litre stainless steel potable water tank and 90 litre stainless steel sealed sewage waste holding tank, **heating and lighting**, auto-frost protection system.

VOSA TESTED SEATING

The main welfare cabin area is equipped with five seats, each with full (VOSA approved) three point seat belt. There is an anti-slip step, stainless steel floor, lighting, heating and stowage.

MESS AREA

Complete with microwave and water boiler to keep your crew fed and watered, along with sink which has hot and cold running water for whoever draws the short straw and has to do the washing up!

WELFARE CABIN

The roomy cabin has plenty of space for your crew to relax. There is storage, heating, a microwave, water heater and waste bin. The table provides a stable surface for hot drinks, the study of plans or even The Times crossword!

CABIN FEATURES

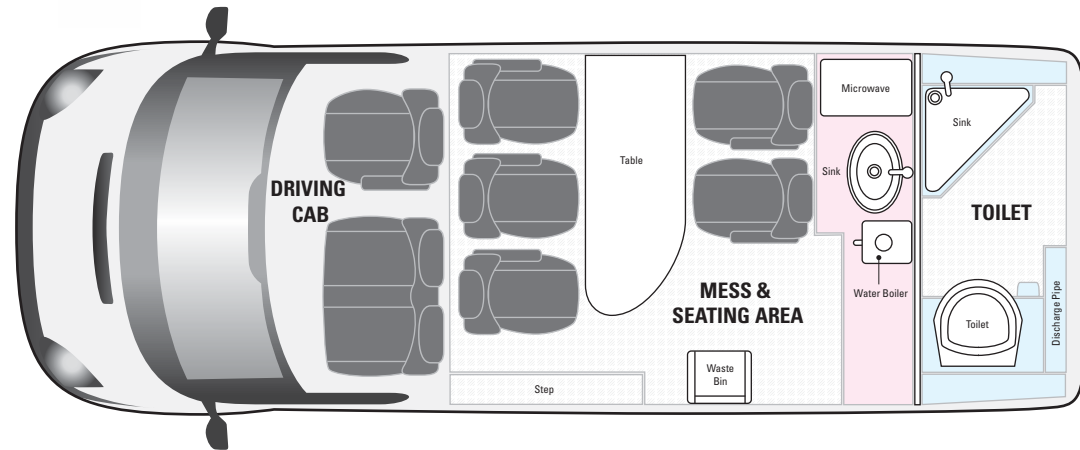

Five seats around a central table gives plenty of room, whether it's a planning meeting, working lunch or you just need to escape the elements for a brew.

ANTI-SLIP STEP

The anti-slip step provides safe and secure footing even for dirty or wet site footwear, whilst the stainless steel cabin floor is hard wearing and easy to clean.

room for the **whole team**

- VOSA approved seats
- Private toilet area
- Instant hot water
- Drinking water
- Trans

Description	Measurement
Overall length (external)	4525mm
Overall width (external)	2044 mm
Overall height (including lighting rig)	2380 mm
Drinking water tank capacity	80 litres
Toilet waste tank capacity	90 litres

Plan and dimensions for illustrative purposes only, measurements based on standard Ford Transit LWB specifications.

LIGHTBARS
ISO 9001 and CE approved, the 36" LED starbright lightbars (front and rear) give clear warning to other vehicles and site users.

WELFARE CAB
Seating for five and all the facilities you need for a day on the site. Equipment storage space helps to keep everything tidy and the VOSA approved seats make for safe and comfortable travel.

TOILET WC
The private toilet area, accessed through the rear doors, has a fully flushing fresh water toilet, hot and cold running water in the forearm sink along with independent heating and lighting.

DRIVERS CAB
With room for three, including the driver, the front cab is open to the rear welfare cab to allow for conversation either whilst stationary or on the move.

REAR DOORS
Available with optional Category 8 chevrons for highway use.

NON SLIP STEP AND STEEL FLOOR
The anti-slip step guards against trips and slips, whilst the stainless steel floor and kickboards provide a hard wearing and easy to clean surface.

SLIDING ACCESS DOOR
When fully open the sliding side door provides plenty of room for easy access.

TOW BAR
Suitable for loads of up to 750kg when towing on the road, ideal for a generator, water/fuel bowser or simply a trailer for those tools of the trade.
